PROFESSIONAL SUMMARY

IT leader with 7+ years across digital innovation and infrastructure development, including 5+ years in retail technology and system architecture. Currently leading IT and digital transformation at Laundrybox Dubai bridging advanced technology with premium customer service through AI-driven automation, operational hardware integrations, and customer facing digital touchpoints. Proven track record building scalable systems, launching 24/7 chatbots, implementing operational tracking solutions, and aligning IT strategy with marketing analytics and SEO for measurable business growth.

PROFESSIONAL EXPERIENCE

Head of IT & Digital Transformation | Laundrybox

Dubai, UAE | April 2025 – Present

- **Digital Ecosystem Leadership:** Architect Laundrybox's end-to-end digital ecosystem as the sole IT lead, owning every digital touchpoint across operations, customer experience, logistics, and financial systems.
- **AI Chatbot Launch:** Designed and launched a 24/7 WhatsApp chatbot from scratch, built around real user behaviour patterns to streamline bookings and reduce response times.
- **Heat Seal Label System:** Led implementation of the Heat Seal Label System for garment tracking — a cross-functional rollout that revolutionized operational accuracy and inter-departmental workflow.
- **Online Presence & SEO:** Built a strong online presence that makes Laundrybox easy to find, trust, and book. Drive digital strategy, SEO, and AI-led optimization in close partnership with the marketing team, using analytics to refine campaign performance.
- **App Infrastructure:** Played a key role in enhancing the mobile app infrastructure, deepening insight into customer needs and mobile user behaviour to inform product decisions.
- **Cross-Functional Enablement:** Partnered with Customer Service, Operations, and other teams — translating complex technology into simple, step-by-step instructions for non-technical users.
- **Resilient Operations:** Maintained system reliability and continuity of digital services through a regional period of significant economic and operational pressure.

IT Administrator | The **Muffin House / YummBites / MFoods**

Kerala & Bangalore, India | Feb 2021 – March 2025

- **System Administration:** Managed IT infrastructure (servers, networks, hardware) across Kerala and Bangalore, ensuring high performance and uptime.
- **Network Security:** Implemented and monitored security protocols — firewalls, antivirus, and encryption — to protect data and systems from cyber threats.
- **ERP Integration:** Led integration of a new ERP system in collaboration with finance and operations teams, ensuring seamless data migration and system functionality.
- **Sales & Marketing Tech:** Implemented a new CRM that improved lead tracking and conversion rates by 20%, and supported digital marketing campaigns that lifted online engagement by 35%.
- **Operational Efficiency:** Streamlined IT processes for a 15% increase in overall operational efficiency across the group.
- **Technical Support & Training:** Delivered 1st and 2nd level support across hardware, software, and network issues, and trained employees on new systems to enhance proficiency.
- **Backup, Recovery & Vendors:** Owned data backup and disaster recovery planning, and coordinated with vendors for IT equipment and services within budget.

AREAS OF EXPERTISE

- **Digital Transformation:** Leading the shift from traditional operations to tech-first solutions.
- **AI & Automation:** Designing 24/7 smart chatbots and user behaviour led tools.
- **Operational Technology:** Heat Seal Label Systems and garment tracking integration.
- **IT Strategy & SEO:** Aligning technical infrastructure with digital growth and marketing analytics.
- **Retail & Service Tech:** ERP, CRM, POS, and customer-facing app ecosystems for service businesses.

KEY ACHIEVEMENTS

- **Launched 24/7 WhatsApp Chatbot** at Laundrybox — built from scratch around user behaviour, providing always-on customer support and bookings.
- **Implemented Heat Seal Label System** for garment tracking, transforming cross-departmental operations and accuracy at Laundrybox.
- **Scaled Digital Presence:** Strengthened Laundrybox's online presence and app infrastructure as one of Dubai’s top laundry services.
- **CRM-Driven Sales Lift:** Improved lead tracking and conversion rates by 20% through CRM rollout at MFoods group.
- **Marketing Campaign Success:** Co-led digital campaigns that increased online engagement by 35% and lifted brand awareness.
- **Operational Efficiency:** Streamlined IT processes for a 15% gain in overall operational efficiency.

LEADERSHIP & STRATEGY

- **Strategic IT Management:** Direct technology infrastructure aligned to broader business goals; lead innovation and change management initiatives.
- **Cross-Department Collaboration:** Partner with Operations, Customer Service, Sales, and Marketing to deliver technology-driven solutions that improve customer experience.
- **Problem-Solving & Decision-Making:** Translate complex business challenges into actionable solutions that improve efficiency, reduce cost, and lift customer satisfaction.
- **Team Development:** Mentor and guide cross-functional team members; foster a collaborative environment focused on professional growth.

EDUCATION

Bachelor of Technology, Mechanical Engineering
PRIST College of Engineering | 2021 – 2024
